

Vellaris

Tailor-made payment solutions

Vellaris is a global payment service provider and we process across a broad spectrum of merchants. What we offer is a simple, fast and innovative technology to accept online payments through your web site.

By leveraging off an extensive network of relationship with numerous banks in Russia, UK and Europe, we are able to offer our customers highly competitive buy rates.

“ Innovative and simple payment solution from Vellaris has empowered our business to move with the times. ”

TECHNOLOGY

With the technology that has been on the market processing payments for over 12 years, Vellaris can provide the most fitted solution for your business.

SECURITY

As an international Payment Service Provider, Vellaris values the safety and security of merchants very highly and as such, we have the highest security standard – PCI DSS Level 1.

GLOBAL ACCESS

Among the unique advantages you have with our system is the ability to significantly reduce the number of rejections of Russian issued credit cards from a number as high as 80% to 0%.

COST REDUCTION

We strive to help all our clients by significantly reducing chargebacks, anti-fraud levels and various costs, such as currency conversion and payment collection costs.
